## PLAYER/TEAM GAME ANALYSIS SHEET

A critical part of any team sport is to be able to effectively analyze how individual players are doing in game situations, in their respective positions, and how they do as a team. A quick way to accomplish this is to record who made the mistakes, or gave up points, and who made the points for the team. The following tables allow you to not only analyze your own players/team, but also the opponents ... so you know where their weaknesses are and can plan your plays accordingly. Simply fill in the names for the teams and the numbers and/or names for the players, and then make a tick mark in the appropriate cell for each rally, indicating which player made what mistake or point. Add them up at the end of the set or match and then you can analyze the results and discover what needs to be worked on more.
